

What to do before and after your body sugaring appointment:

The hair needs to be at least 1/4 " long. It is best not to trim before your appointment.

Please do not wear any lotions, makeup, or deodorants to your appointment.

For best results, do not exfoliate the day before, the day of, or the day after hair removal.

We suggest you do not schedule your appointment while on antibiotics, if you think you may have a virus, or during your menstrual cycle, as you may be more sensitive.

The only time people are deterred from hair removal is when you are on a skin thinning product.

After your appointment, we recommend waiting 24hours before exposing your skin to the sun or infrared lamps.

Avoid perfume soaps or products with chemical irritants and avoid makeup 12 hours following a facial treatment.

Do not apply any of your own creams or lotions for 24hours.

Do not use razors or depilatory creams between treatments, as this will interfere with your goal to refine and diminish your hair growth and to have smooth healthy skin.

On average people will return within 4-6 weeks for another session.

Extraction of the hair at 1/4" or less on a regular basis leads to permanency.

~Let us know if you have any more questions or concerns about body sugaring~
